

HEIGHT BARS

Eliminate damage to vehicles and property caused by oversize vehicles entering areas of restricted height by installing suspended Height Bars.

Our Height Bars are available in five standard lengths: 2, 3, 4, 5 or 6 metres and come with suspension chain and hanger assemblies. Powder coated safety yellow with reflective diagonal stripes, they carry the text "LOW CLEARANCE" with the specified height in black letters on a white background.

Use height bars at locations where vehicles first enter an undercover area or encounter an overhead obstruction, where the clearance in either case is: (i) 3 metres or less if only cars or light vans are likely to use the facility or (ii) 4.6 metres or less in all other areas.

Freestanding surface mount or below ground posts are available for installation where there is no existing supporting structure.

Value features:
