

HEIGHT BARS

Eliminate damage to vehicles and property caused by oversized vehicles entering areas of restricted height by installing suspended Height Bars.

Our Height Bars are available in five standard lengths: 2, 3, 4, 5 or 6 metres and come with suspension chain and hanger assemblies. Powder coated safety yellow with reflective diagonal stripes, they carry the text "LOW CLEARANCE" with the specified height in black letters on a white background.

Use height bars at locations where vehicles first enter an undercover area or encounter an overhead obstruction, where the clearance in either case is: (i) 3 metres or less if only cars or light vans are likely to use the facility or (ii) 4.6 metres or less in all other areas.

Freestanding surface mount or below ground posts are available for installation where there is no existing supporting structure.

Value Features:

- » Available in five convenient lengths.
- » Comes complete with hanger assemblies and chain.
- » Powder coated high visibility safety yellow.
- » Displays the required clearance (please specify).
- » Manufactured from durable galvanised steel tube.
- » Optional Offset hangers available in 2 lengths.
- » Can be post mounted for freestanding installations.

Height bar with optional Stand off brackets.

Buyers of this product should also see Section 3.3.
