

## PORT-A-GUARD MAXI

With a standard opening of 6.7 metres, the Maxi takes the Port-a-guard range to a new level of versatility.

With an increased height, reduced gap between the floor and the bottom of the barrier and smaller opening size between the slats, the Maxi offers an even greater level of security and safety.

A combination of aluminium slats, galvanised slide components and stainless steel fixings means the Maxi is suited to both indoor and outdoor applications. The Maxi now has four locking castors as standard.

### Value features:

- » Complete with four heavy duty locking castors.
- » Non-corrosive construction for outdoor use.
- » Increased safety and security due to reduced opening sizes.
- » Can be linked together to form a continuous barrier.
- » Easily transported by one person.

### Specifications

<b>Description:</b>	Portable expanding barrier.
<b>Material:</b>	Slats & posts – extruded aluminium. Slide guides – Hot dipped galvanised steel. Assembly fittings – Stainless steel.
<b>Finish:</b>	Natural aluminium.
<b>Height (open):</b>	1430 mm from ground to top of slats.
<b>Width:</b>	Open 6.7 metres / Closed 580mm.
<b>Weight:</b>	32.2kgs.

PART No.	DESCRIPTION

## PROPRIETARY DESIGN

This product has been fully designed and developed by Barrier Group. It is a proprietary product of Barrier Group Pty. Ltd. and protected by copyright.

---

## FREE END OF LIFE RECYCLING

Return this product to Barrier Group for free recycling rather than dumping into landfill.

---

## NEW AND UNIQUE

This is a new and unique product. It has either been designed, developed and manufactured by the Barrier Group Pty. Ltd. or it is being seen here for the first time.

---

## 100% RECYCLABLE

This product is manufactured from virgin grade raw materials and is 100% recyclable using existing, readily available recycling technology and services.

---

## RECYCLED MATERIALS

This product has been manufactured from either a combination of recycled materials and virgin grade materials or entirely from recycled materials.

---

## HOT DIP GALVANISED

This product has been hot dip galvanised prior to any surface coatings being applied. Hot dip galvanised offers vastly improved corrosion protection and extended life in harsh environments.

---

## FIXINGS INCLUDED

This product comes complete with all the necessary fixings to complete the standard installation. When comparing competitors prices against our own, always ensure they have included the fixings with the product (excludes gravel spikes).
