

RUMBLE STRIP

A durable and versatile low profile rubber rumble strip for use as a speed moderator or lane divider on roadways. Ideal in residential complexes to slow the flow of vehicles. Alternatively, it can be used as a wall mounted bump protector. Manufactured from recycled rubber, 500mm long x 100mm wide x 15mm thick. Can be installed with appropriate masonry fixings or glued using a suitable adhesive.

PART No.	DESCRIPTION
RS500-B	Rumble strip 500 x 100 x 15mm – Black
RS500-Y	Rumble strip 500 x 100 x 15mm – Yellow

PARKING SEPARATOR

A versatile rubber separator suitable for slowing down the speed of vehicles or delineating parking or no-go areas. Alternatively it can be wall mounted for use as a docking or car park buffer.

Moulded from recycled rubber with a high visibility yellow finish with three reflective panels on each side. Can be mounted into concrete or asphalt with the fixings supplied. 1000 x 150 x 50mm. Weight 6.6kgs.

PART No.	DESCRIPTION
PS1000-Y	Parking separator 1000 x 150 x 50mm – Yellow

CASE STUDY

A high volume concrete batching plant in Victoria had a competitor's steel speed humps in place that had failed miserably after a relatively short time (see inset photo). They had to be capable of handling constant, very heavy concrete tankers and trucks at a very demanding site.

We were contacted and asked if we could provide a solution. When we suggested our injection moulded polyethylene Slo-motion Compliance hump the client said 'No Way!'. But when we assured him that they were easily up to the job.

This photo and the inset close up were taken 1 year after the installation. The Compliance Speed Humps have been subjected to the harshest possible treatment on a daily basis without any visible signs of distress, cracks, fading or movement. And for way less than the cost of the original steel humps we replaced. The customer is very, very happy with the outcome!

Slo-motion Compliance – as tough as the Aussie outback!

LEGEND

PROPRIETARY DESIGN

This product has been fully designed and developed by Barrier Group. It is a proprietary product of Barrier Group Pty. Ltd. and protected by copyright.

FREE END OF LIFE RECYCLING

Return this product to Barrier Group for free recycling rather than dumping into landfill.

NEW AND UNIQUE

This is a new and unique product. It has either been designed, developed and manufactured by the Barrier Group Pty. Ltd. or it is being seen here for the first time.

100% RECYCLABLE

This product is manufactured from virgin grade raw materials and is 100% recyclable using existing, readily available recycling technology and services.

RECYCLED MATERIALS

This product has been manufactured from either a combination of recycled materials and virgin grade materials or entirely from recycled materials.

HOT DIP GALVANISED

This product has been hot dip galvanised prior to any surface coatings being applied. Hot dip galvanised offers vastly improved corrosion protection and extended life in harsh environments.

FIXINGS INCLUDED

This product comes complete with all the necessary fixings to complete the standard installation. When comparing competitors prices against our own, always ensure they have included the fixings with the product (excludes gravel spikes).

WARNING
