

SCORPION WHEEL CLAMP

The Scorpion Wheel Clamp is a unique heavy duty wheel clamp capable of fitting a wide range of wheels from large 4WD to small sedans.

It is perfect for protecting vehicles, trailers, caravans etc. from theft. Steel jaws are clamped around the wheel using high tensile steel chain and our unique tensioning system.

The Scorpion can be fitted to any wheel on the vehicle, fits steel or mag. wheels and does not require the removal of wheel trims.

Unlike most wheel clamps which attach awkwardly around both sides of the wheel, the Scorpion is fitted from the outside only. This makes it quick to fit and easy on the back.

All parts pack neatly inside the wheel clamp for easy storage or transport.

Already in use by one of Australia's most senior enforcement authorities, the Scorpion is the perfect way to immobilise the widest range of vehicles.

Value Features:

- » Fitted from side of wheel.
- » No need to remove wheel trims.
- » Fits a wide range of wheels.
- » Can be fitted to any wheel front or rear.
- » Robust construction to resist Vandalism.
- » Zinc plated to avoid corrosion.
- » Reflective sign face for night visibility.
- » All parts stored inside the unit when not in use.
- » Very compact for storage and transport.
